For those of you who are new to the concept of communicating with animals, I'm sure you will find my articles enlightening and enjoyable.

I have been talking to and connecting with animals for many years. I am blessed to have the opportunity to share my gift with you. By talking to animals we learn their likes & dislikes, how they feel, what they need & why they do the things they do! Our animal companions play an important role in our lives and they are usually very eager to share thoughts & feelings on their lives and yours! My greatest teachers have been the animals I have encountered along the way.

Coming up in my forthcoming articles I will answer frequently asked questions, give tips on how you can communicate with your animals & share some words of wisdom from the animals themselves!
