Life Lesson; Pirate has a "3" Life Path

The vibration of the #3 Life path is:

Communication, Self Expression, Creativity, Freedom, Uplift and Motivate

The number 3 life path will be presented with opportunities throughout his life to utilize his natural talents for communicating and uplifting others. This magnetic soul will bring much joy and happiness to those with whom he has contact. Whether it be for the benefit of his people or for the other animals he encounters Pirate will bring out the best of any situation.

The number 3's presence alone is enough to make one's heart soar. One look into their bright eyes and captivating smile and your worries will melt away! You will notice that many others are drawn to touch, pet or cuddle Pirate. He will be especially drawn to young children! The number 3 always looks on the bright side of life and celebrates life with maximum zest - they love to savour it all. Your number 3 animal companion has a tendency to love their food, treats, special occasions and gatherings - any thing that includes laughter and joy!

A number 3 animal can at times be a little over exuberant and is the lover of attention - but keep in mind that it is all in good faith and just for the pure joy of having a good time and being the centre of attention. 3 life paths can suffer extreme highs and lows and they must learn to control their emotions.

With the 3 being the communicator of the numbers, be aware if your animal has more than two number 3's in their chart....this can lead to too much vocalization i.e. barking, mewling, screeching, crying etc. On the other hand, they love to be involved in conversations so remember to talk openly with them. Ask a 3 life path for advice and guidance in a situation and you will be surprised at how easily problems are solved!

It is best for Pirate to have companionship either with other animals or with people; this is not a soul that can be left alone. Avoid confinement to the same area over long periods of time. He requires stimulation, someone to talk too and plenty of open space, walks and excursions where he can enjoy new experiences. If he doesn't have the resources to satisfy these desires he may become destructive and out of control.

The 3 life path is incredibly loyal and therefore is easily jaded if trouble should brew in a relationship, however loyalty & love usually wins and the 3 will just as easily forgive and forget!

The 3 life path likes the world they live in to look happy, they love bright colourful and comfortable environments! The 3 life path animal is an absolute joyful companion who can easily turn a bad day into the best day of your life.

His 3 life path explains his role in helping me with my Animal Communication skills, the 3 is all about Communication and expression!

I cannot count the amount of times we have witnessed Pirate just sitting by the fence listening to the neighbour's children and their pets. He will sit centimetres away from birds and small bugs and simply watch and communicate with them. He does indeed make us laugh and smile just by watching him. The numbers in Pirates chart are all completely compatible, he does not have any conflicting numbers so when you meet him, what you see is exactly what you get.
