Life Lesson;

Pirate & Sedona both have a "3" Life Path

The vibration of the #3 Life path is:

Communication, Self Expression, Creativity, Freedom, Uplift and Motivate

The number 3 life path will be presented with opportunities throughout his life to utilize his natural talents for communicating and uplifting others. This magnetic soul will bring much joy and happiness to those with whom he has contact. Whether it be for the benefit of his people or for the other animals he encounters

The number 3's presence alone is enough to make one's heart soar. One look into their eyes which shine with such depth and their captivating smile and your worries will melt away! You will notice that many others are drawn to both Sedona and Pirate. They are physical standouts, each with their own unique beauty. They will be especially drawn to young children and anywhere that there is laughter and excitement! The number 3 always looks on the bright side of life and celebrates life with maximum zest - they love to savour it all. Your number 3 animal companion has a tendency to love their food, treats, special occasions, gatherings & visiting new places with genuine fascination and enthusiasm!

A number 3 animal can at times be a little over exuberant and is the lover of attention - but keep in mind that it is all in good faith and just for the pure joy of having a good time and being the centre of attention. 3 life paths can suffer extreme highs and lows and they must learn to control their emotions.

With the 3 being the communicator of the numbers, be aware if your animal has more than two number 3's in their chart....this can lead to too much vocalization i.e. barking, mewling, screeching, crying etc. Sedona does infact have two 3's in his chart, so somewhere within his soul is a need to be heard. I can therefore gather that Sedona would be the more vocal of the two of them. On the other hand, they love to be involved in conversations so remember to talk openly with them. Ask a 3 life path for advice and guidance in a situation and you will be surprised at how easily your problems are solved!

These two boys need to have companionship either with other animals or with people; a 3 life path can not be left alone. Avoid confinement to the same area over long periods of time. These two require stimulation, someone to talk too and plenty of open space, walks and excursions where they can enjoy new experiences. If they don't have the resources to satisfy these desires they may become destructive and out of control.

The 3 life path is incredibly loyal and therefore is easily hurt if trouble should brew in a relationship, however loyalty & love usually wins and the 3 will just as easily & quickly forgive and forget!

Natural match numbers: 3, 6 and 9

Compatible numbers: 1, 2, and 5

Challenge numbers: 4, 7, and 8

Soul Desire: "3" & "6" = Natural Match

What the soul desires - what will fulfil them

Pirate's soul number is a "6"

Pirate is most fulfilled when caring for others. He will show extreme sensitivity and intuition when in contact with other animals and people, especially those who are in need of nurturing and some TLC. He is genuinely concerned about the welfare of those around him. The 6 is a very domestic, motherly energy therefore his home & family are very important to him. Pirate will most likely be a very magnetic soul who exudes peace and serenity, he is a natural healer whom always puts others needs before his own. Unless there is food involved, number 6's love their food!

Sedona's soul number is a "3"

Sedona's soul yearns to be heard! With a 3 Life path and a 3 Soul desire, this puppy will not only be presented with situations in which he feels compelled to communicate, but when he does - *boy!* It is going to make his soul soar. Sedona feels best when he is expressing his thoughts, feelings and desires. He loves to be the centre of attention, so chances are he will naturally feel left out if Pirate is getting too much attention for too long! But, this is o.k with Pirate since his 6 will selflessly make way for Sedona's needs!

Personality Number: "9" & "1" = Compatible

The personality shown to the world

Pirate's personality number is a "9"

Pirate is a natural leader. Not the leader who is taking control for their own benefits, but a leader whom others instinctively turn to when they are in trouble. This is the "old soul" number. When you look into the eyes of an animal who has a 9 in their charts, you know there is a great deal of wisdom in their soul. Pirate has genuine care and concern for the well being of humanity and the animal kingdom.

Sedona's personality number is a "1"

Sedona's # 1 personality also defines leadership and control. However, unlike Pirate's 9, Sedona's # 1 personality will manifest physically as him seeming to be the dominant dog. Sedona has great drive and focus. He will be the one to take control of any situation through his great physical presence, stamina and that undeniable drive to "get there first" - to be number 1! This dog works hard and plays hard!

This is a compatible match because whilst there are two leadership qualities, they each fulfil different ends of the spectrum. Pirate has natural leadership in a mental and spiritual sense, where as Sedona fulfils the needs for someone to take charge of the physical world. Pirate's "old soul" readily accepts Sedona's sometimes bossy personality because he beholds the wisdom to understand "why" Sedona feels the need to be in charge.

Name Number "6" & "4" = Compatible

The vibration that is created by the commonly used name.

Pirate's name number is a "6"

An animal with a 6 name vibration is very protective, loyal, healing and generally holds a calm disposition. They do like to be in charge of the home and the people with in it. They cannot tolerate discord, conflict or tension. They are natural peacemakers and mediators. The animal with a 6 power name is usually very attractive or striking in appearance and has a magnetic presence, which draws others to them.

Sedona's name number is a "4"

An animal with a 4 name vibration is very protective of the physical environment. With a 4 name vibration I can say that Sedona will take the role of being the guard dog, the one in charge of home security and safety. The 4 is a deep thinking, mental number so Sedona will need to know *"where, why, how and who!"* this is a dog that likes to know where you are, how long you will be, where you are going and why aren't you home yet! Organization, planning & routines are imperative to the dog with a 4 vibration. If you are having trouble getting organized - ask your 4 animal to help you out!

The 4 and 6 are very compatible since they are both aiming at the same result - a peaceful, harmonious and safe home environment. These two will work well together and balance each other out nicely.

Destiny "9" & "7" = Neutral

The main goal the soul is to achieve in this lifetime.

Pirate's destiny number is a "9"

Overall, Pirate is destined to be of service to either his people, to other animals or both. If he were in human form, he would assume the role of humanitarian. Pirate is wise, highly evolved, spiritual and healing. His whole purpose is to make the world a better place and seeks to create a more humane society for animals and humans alike.

Sedona's destiny number is a "7"

In numerology the 7 is the seeker of faith. An animal with a 7 destiny is one who analyses everything! He is a thinker, sometimes you will notice a distant yet extremely focused look on his face. These are the times when Sedona needs his own space to process all that he has taken in. Sedona will have a "sharp tongue" and be quick to tell others how he feels.

I feel that the 9 and 7 Destinies are a great match. What you have here is Pirate with his "9" which oozes faith, spirituality and selflessness matched with Sedona's "7" who is destined to learn to have that faith and be selfless. It is quite obvious that Sedona will learn a lot from Pirate in this life path.

Birthday Number "1" & "1" = Natural Match

What the day of birth date says about each of them.

Pirate & Sedona have a "1" Birthday number

(they were born on the 19th; 1+9=10 ; 1+0=1)

Those animals born on a 1 day are natural leaders, highly self-motivated and innovative in the way they carry out tasks. They pride themselves in doing a good job. Since these two are brothers naturally they have the same day of birth. What I find interesting is that they were born the 19th, therefore their birthday comprises the energy of the 1 and the 9. If you reflect back to the boys' Personality numbers, Pirate is a "9" and Sedona is a "1". I feel that there is a significant synchronicity in this. Each of them do possess leadership qualities but with differing inflections. Pirate seems to assume more of the spiritual healing "9" from his birthday whereas Sedona fulfils the dominant more aggressive "1" in the birthday number.

REPEATING NUMBERS

Pirate has the number "6" repeating in his numerology chart

Those with repeating number 6 are natural healers and nurturers. They are here to serve those they love and come into contact with. Be aware of the animal who has more than two 6's prominent in their chart; they can be subject to placing way too much responsibility on their own shoulders. They can become the martyr, feeling like they have to take control and may become resentful.

Pirate has the number "9" repeating in his numerology chart

Those with repeating number 9 are natural healers and bear the responsibilities of sacrificing their own needs for that of other. Part of Pirates journey in this life is to learn to accept help and let others do things for him. There is an abundance of wisdom and spirituality in his soul, all he has to do is be present and the world feels like a better place!

Sedona has the number "3" repeating in his numerology chart

Those with repeating number 3 need to be heard and express themselves. Sedona has two 3's, therefore he will be a tad more vocal than Pirate. He will also need more physical stimulation, his repeating 3 means that he has abundant physical energy and requires constructive outlets to express himself. Sedona will love any form of physical exercise and will most definitely love being watched and the centre of attention whilst he plays.

Sedona has the number "1" repeating in his numerology chart

Those with repeating number 1 will physically take control of any situation. They exude independence, self-motivation, physical power, strength and stamina. The number one is a very masculine energy and can appear to be domineering or sometimes overpowering. Sedona's two number 1's will manifest in his physical world by him being the dominant dog. He will assume that he is the boss! If I see any more than two number ones in a chart I would caution that the animal/person could be a bully.

Summary

Pirate's chart: 696913

Sedona's chart: 314713

These two are a great match. There aren't any challenging or toxic numbers in their charts. What is interesting is that being brothers and having the same life path and birthday, I can really see how their names help define who they are and how they present themselves to the world.

My own personal validation is that this works! The breakdown of the personal numbers and comparing them readily resonates with my own relationship with Pirate and Sedona.

Sedona definitely feels like he is the boss primarily through his physical presence, he evidently has much more physical drive and energy than Pirate, he is the ultimate security guard, he is more vocal and the one who barks when he wants something, and is most put out if we do not stick to routine! The numbers say it all!

You only need to look at Pirate's smile and bright eyes to know that there is something special about him! There is a depth of wisdom, compassion and faith that only a mystic or sage could understand! Pirate is quite happy to sit and comfort another being. He leaves all of the hard physical work to Sedona. We always say that Pirate is the "back-up" security! They really do compliment each other nicely. The only time they do compete is (as the numbers indicate) over food (bones in particular) and for attention.

They most certainly do bring us endless amounts of joy and happiness especially when the playful "clown" number 3 is in play. We are truly blessed by their presence.
